The Australian Prawn Farmers Association is the leading industry organisation for prawn and shrimp farming in Australia, an industry with a value of circa \$80 million. The industry focuses on providing high quality and high value product to the Australian retail sector and is supported by world leading researchers. The annual Symposium is the pre-eminent forum for Australian prawn farmers to gain new knowledge, network and meet with service providers, vendors and scientists.

We invite students to submit proposals for posters to be displayed at the upcoming symposium at the Brisbane Convention and Exhibition Centre. This is a fantastic opportunity to showcase student work!

We welcome proposals from students relative to aquaculture from study fields such as, but not limited to - genetics, animal health management, engineering, economics, marketing and public relations, environment, water quality and robotics.

Australian Prawn Farmers Association R&D representatives will evaluate proposals and selected proposals will be invited to provide a poster.

All posters will be eligible for the R&D Most Innovative Idea Award for the most innovative R&D idea for industry and the winner will be invited to the Awards Dinner on 30<sup>th</sup> July at the Brisbane Convention and Exhibition Centre and presented with a plaque in category of Student Award.
